EE Controls Home Office Brewster, NY

Distribution

Since incorporation in 1983, EE CONTROLS has successfully marketed through Industrial Specialist Distributors located in all industrial markets in the U.S. Same day shipment is supplied from the main warehouses in New York and Toronto direct to authorized stocking distributors and OEM'S.

Full Service

Factory engineers in NY supply technical backup direct to customers and to EE CONTROLS engineering sales representatives located in every North American Market. Deliveries of orders are same day from large warehouse stocks, as required.

Pricing

Industrial Motor Control cost savings result from efficient direct manufacturer to customer distribution without numerous extra channels and handling locations that create the enormous overhead of the huge conglomerates.

Dual product lines, contactors, circuit breakers, disconnects with two or more product series; premium or economy choices for added value and competitive edge.
