

Target Table Reference: (How to use this chart)

- Step 1) Locate your part number. This will designate the selectors abilities as far as how many positions there are, cam used and color.
- Step 2) What position do you want your contacts to actuate and how many contacts need to actuate? Look at the "Contact Closure Chart". The "DOT" on the chart indicates in what positions the contacts will make in that position.
- Step 3) After choosing the chart desired, look to the left under "Contacts Used". These are the contacts that you need to use in order to get the closures shown. Then look at the "Contact Location on Holder". The black square indicates where the contact block must be.

Selector Switch Part Number	Positions	CAM	Contacts Use	Contact Symbol	Contact Closures	Contact location on holder
BFK1-S,R,G,Y,B (polyamide)		D	SES10			
BMK1-S,R,G,Y,B (metal) BMK1-L (with lever) (metal)		D	SES10 SES01			
		D	SEU11
